- Encourage clients to attend any pre-treatment activities and/or referral to an addictions agency.

- Time of arrival must be forwarded to intake office prior to admission. Any delays/cancellations must be reported as soon as possible by the worker or client. If we do not receive information of delays, this may result in cancellation.
- If a client changes their mind regarding admission, please telephone us as soon as possible to allow others the earliest possible notice for bed availability.
- If a client appears on admission day **without having received the Admission letter**, this client **will not** be admitted into the treatment program nor the facility. The client will be requested to return home to contact their referral source.
- If a client cancels their admission, their application will not be kept active, they will need to reapply.

WAIT GROUP

- Once the beds have been filled, all other applicants (wait group) are waiting for a bed to be available. As cancellations occur, we will fill the bed spaces with applicants who are treatment ready and available to attend on short notice.

About the Native Wellness Assessment™:

The Native Wellness Assessment™ (NWA™) was launched on June 25, 2015 and is the first of its kind in the world. Statistically and psychometrically, the NWA™ content and structure performed well, demonstrating that culture is an effective and fair intervention for Indigenous Peoples with addictions. The NWA™ can inform Indigenous health and community-based programs and policy. The NWA™ is a product of the Honouring Our Strengths: Indigenous Culture as Intervention in Addictions Treatment (CasI) research project whose team included Indigenous and non-Indigenous researchers from across Canada, Elders, Indigenous knowledge keepers, cultural practitioners, service providers, and decision makers. To learn more about the validation of the NWA™ visit:
